

STERILE GOWN

STERILE SURGICAL GOWN

MD

CODE NM-NSTERIL

- CLASS II MD
- CAT. III PPE

SMS polypropylene PP (40-80 g/m²) surgical gown, with long sleeves, belt and Velcro rear fastening, and elastic cuffs. Available in various sizes.

The product is made of 100% recyclable fabric, produced with non-woven technology and PP raw material. It is obtained by adding a melt-blown layer, which acts as a filter, between two spun-bond fabrics. Thanks to its waterproof and filtering structure, it is a breathable fabric that prevents the penetration of viruses and bacteria.

The gown is suitable for surgical procedures after sterilization. Excellent strength, water-repellent, breathable, ventilated and soft, odorless, sterile, and stretch fabric.

Seamless single piece. Waist fastening: adjustable with ties. Back neck closure: adjustable with Velcro straps and reinforced neckline trim. Good fit and drape effect.

Available in BLUE - anti-glare and fade-proof color.

MISC. SIZES / COLOR BLUE / CARTON OF 50 PCS.
