

CUT-MIX

CUT-RESISTANT PU-COATED NYLON GLOVES

CODE NM-CMP

- CAT. II PPE
- SUITABLE TO PROTECT FROM MECHANICAL RISKS:
 - ABRASION 4
 - CUT X
 - TEAR 4
 - PERFORATION 3
 - TDM C CUT RESISTANCE RATING

CUT-RESISTANT PU-COATED NYLON gloves.

The gloves combine the elasticity, comfort and tactile sensitivity of the base fabric and polyurethane coating, which guarantees excellent resistance to abrasion and cuts, and a secure grip even on wet surfaces, allowing high dexterity and precision in handling and assembly operations.

Hands can breathe freely.

Elastic cuffs to ensure excellent fit and safety.

Recommended, in particular, for use in industrial settings, for warehouse activities, handling of blades or sharp tools, handling of metal profiles or thin sheets, glass processing and many other uses where handling and cut-resistant protection are required.
