

# DOT - MIX

## Nylon glove dotted on palm Grey/Black Nitrile coated

The gloves combine the elasticity, comfort and tactile sensitivity of the base fabric and nitrile coating, which guarantees excellent resistance to abrasion and a secure grip, even on wet surfaces, allowing high dexterity and precision in handling and assembly operations.

Extra-grip guaranteed by the textured palm and fingers. Hands can breathe freely. Elastic cuffs to ensure excellent fit and safety.

Particularly recommended for use in industrial settings, for warehouse activities, maintenance work, gardening, and similar activities.

COD. NM-DMN

DPI DI II CAT.

SUITABLE TO PROTECT  
FROM MECHANICAL RISKS:

- ABRASION 4
- CUT 1
- TEAR2
- PERFORATION 1
- TDM CUT X
