

ROCK - MIX

Polyester glove coated in Black Nitrile

The gloves combine the elasticity, comfort and tactile sensitivity of the base fabric and polyurethane coating, which guarantees excellent resistance to abrasion and a secure grip even on wet surfaces, allowing high dexterity and precision in handling and assembly operations.

The hands can breathe freely.

Elastic cuffs to ensure excellent fit and safety.

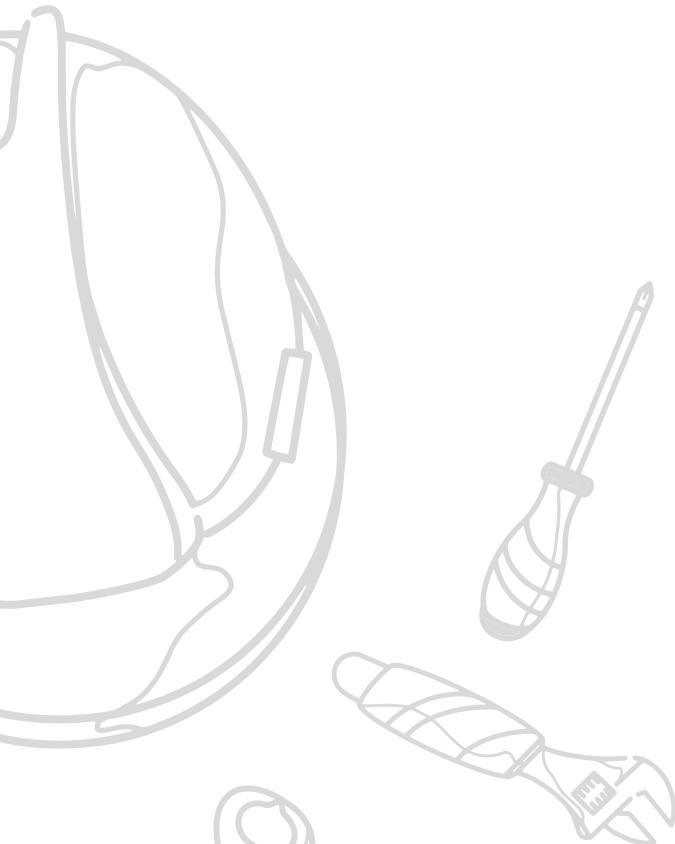

Particularly recommended for use in industrial settings, for warehouse activities, maintenance work, gardening and similar activities.

COD. NM-RMP

DPI DI II CAT.

SUITABLE TO PROTECT FROM MECHANICAL RISKS:

- ABRASION 4
- CUT 1
- TEAR 3
- PERFORATION 1
- TDM CUT X
