

SNOW-MIX

Polyester glove coated in White Nitrile

The gloves combine the elasticity, comfort and tactile sensitivity of the base fabric and polyurethane coating, which guarantees excellent resistance to abrasion and a secure grip even on wet surfaces, allowing high dexterity and precision in handling and assembly operations.

Hands can breathe freely.

Elastic cuffs to ensure excellent fit and safety.

Particularly recommended for use in industrial settings, for warehouse activities, maintenance work, gardening, and similar activities.

COD. NM-SMP

DPI DI II CAT.
