

## LATEX glove without inner fleece

Anatomically shaped blue nitrile reusable glove for right and left hand, without plush.

Ergonomic design ensures a perfect fit and prevents hand fatigue. Very high tactile sensitivity and extended protection beyond the wrist. Molded palm and fingers provide excellent grip in both dry and wet conditions.

**Excellent chemical resistance** to hydrocarbons, organic and inorganic fats, concentrated oils and detergents, organic acids, alkalis, aliphatic solvents, ethers and freons.

**Washable** for repeated use. **Latex-free** product, recommended for people with allergies.
